

Technical Data Sheet

HAGUTHERM Riser pipe

Product description:

Rubberized steel pump riser pipe with sharp thread with high thermal and chemical resistance. Particularly suitable for use in geothermal waters.

Product properties:

- Material: Steel with HAGUTHERM® coating
- Construction lengths: 1-6 m
- Connection type: Sharp thread
- Pressure rating: PN 40

Advantages of the product:

- Temperature resistance up to 100°C
- Corrosion-free
- High thermal and chemical resistance
- High load-bearing capacity
- High insulation value
- Installation and removal are easy and can be repeated

Technical specifications available upon request.
